

vista eye centre

Dr. Larissa A. Derzko-Dzulynsky, MD, FRCSC
Eye Physician and Surgeon, Associate Professor, University of Toronto
Cataract Surgery, General Ophthalmology, Uveitis

Surgery Check List

- **Please read the entire surgery package provided.**
- Please contact your family doctor to get a summary of your chart and any relevant diagnostic testing. For example, ECG, blood work, or any specialist report

Pre op History and Physical - No longer being completed by family doctor.
Please obtain an CPP from the family doctor and any stress test results, ECG, and/or Cardiology reports.

Pre op Patient Questionnaire – Please complete and hand in as soon as possible

- You will need to purchase eye drops to use BEFORE AND AFTER surgery. Please follow the drop instructions that were given to you exactly to reduce the risk of infection and inflammation.
- Please make sure you have someone who speaks English accompany you on the day of surgery. You will not be able to leave after surgery unless a friend or family member accompanies you.
- Although the surgery only takes about 20 minutes, you will be at the clinic/hospital for approximately 4 hours.
